- VueJs
- Nuxt js
- JQuery
- Javascript
- ReactJs (Basic)
- Procedural and OOP PHP
- CSS
- HTML
- Wordpress (customization)
- C/C++

Personal Skills

- Problem solving
- Artificial Intelligence [Image processing, Pattern Recognition, Data mining]
- Affiliate Marketing
- Digital Marketing
- Cloud Hosting Like firebase, Heroku, Amazon web Service

Working Experience

Company Name: Globetech Company Limited

Position: Senior Software Engineer

Responsibility: Full-Stack Software development (Laravel, JQuery, Vue js, Nuxt js)

Duration: From October 21st 2020 (Current)

Company Name: Technohaven Company Limited

Position: junior Programmer

Responsibility: Full-Stack Software development (Laravel, JQuery, Vue js)

Duration: From November 2020- October 15 (Current)

Company Name: Dreamscheme IT

Position: Intern

Responsibility: Full-stack web development (Laravel and Vuejs)

Duration: From December 2019 - March 2020 (4 month)
